

Galloway Township Business Association

(GTBA)

presents

Connecting Business & Government “Speed Networking”

The Galloway Township Business Association (GTBA) along with the Galloway Township government request you join them for their first “speed networking” business-to-business networking event. This is the first GTBA “speed networking” event and the theme for this event is “connecting business and government.”

You will have a chance to visit with the various department heads, public safety chiefs and the

elected body. This unique format provides you the rare opportunity to quickly make connections with these important local, county, state & federal individuals in a relaxed social setting all in the same venue at the same time.

READY...SET...NETWORK
